To Whom It May Concern:

I am writing this letter to highly recommend the team at Penn Valley Constructors for your upcoming building project.

In 2013, my company had a difficult 53,000 sq. ft. building project to complete (the job was abandoned by the former GC) and the pieces of our building were left lying in a field with very little documentation. A friend of ours recommended Penn Valley Constructors.

Jon and his team stepped in to complete the job for us and the result is the most beautiful and useful building we could have imagined. The scope of what they did for us goes far beyond simply finishing the job, they were invaluable to us in handling the redesign / engineering work that had to be done along the way as well. There were many unusual design challenges encountered during the construction and each was dealt with successfully, with our budget in mind. Penn Valley Constructors kept us within budget and on time throughout the entire process.

All members and employees of Penn Valley Constructors were absolutely professional and extremely helpful, meeting with us anytime we requested for updates or to make changes.

We were truly impressed with their capabilities and knowledge and are 100% confident in recommending them; we know you will not be disappointed.

Sincerely

A handwritten signature in blue ink, appearing to read "Tim Fisher".
