To Whom It May Concern,

We could not be happier with Penn Valley Constructors. We had quite an extensive project that they handled professionally from start to finish. They erected our RV dealership in Millstone Twp, NJ and every day we get comments on the beauty and functionality of our building and property. A shout out to John DenBleyker, John Redfield, Jon Otto, Brian Daniels, Tom DenBleyker, Kathy MacPhee, Chris Weight and everyone else we encountered in their company. Some things that you will find in doing business with them are honesty, fairness, and an unbelievable knowledge of all aspects of a big project like ours. If you are planning or considering any construction project, do not hesitate to use Penn Valley Constructors!

Thank you,

John Lenzo
