To Whom It May Concern:

Penn Valley Constructors, Inc. has recently completed the construction of the second phase of our industrial campus. Our business is the manufacture of highly specialized chemicals and materials utilized in microelectronics and diagnostics. Our buildings are as specialized as our products and the markets we serve, demanding sophisticated construction at every level. Few contractors are qualified to undertake a project with these complex issues, particularly on a design/ build basis.

We consider our experience with Penn Valley to be extremely positive. They facilitated almost every level of our projects from planning through design and construction.

Penn Valley gave us incredible service from start to finish. I recommend them and give a rating of 5 stars.

As witness to our satisfaction, we have brought Penn Valley back to help us design and build the next phase of our construction.

Please feel free to call me if you want more information.

Sincerely

A handwritten signature in blue ink that reads "Barry Arkles". The signature is written in a cursive style with a long horizontal stroke at the end.

Barry Arkles, Ph.D.
