

The Thompson Organization

August 13, 2015

To whom it may concern:

The Thompson Organization recently contracted with Penn Valley Constructors, Inc. to act as general contractor for our Toyota dealership located at 122 West Swamp Road in Doylestown, PA. This project consisted of building a new service center and showroom on our site while allowing our existing operations to continue.

Penn Valley Constructors, Inc. was instrumental during the design process in making sure our plans were prepared in accordance with our wishes. They worked closely with the site engineer, architect, MEP engineers, our automotive vendors and interior designer to develop coordinated plans and specifications for the project. Few firms are qualified to undertake a project with these complex issues, particularly on a design/build basis.

We were pleased with the quality of workmanship performed on the building and found them to be extremely cooperative and accommodating. This allowed the project to proceed smoothly and in a timely manner with little disruption to our business. As witness to our satisfaction, we are currently working with them on the design of a new dealership to be located in Willow Grove, PA.

We have previously worked with Penn Valley Constructors, Inc. on several projects that consisted of new buildings, additions, renovations, and site improvements. Their staff and associates are always a pleasure to deal with. I would personally recommend Penn Valley Constructors, Inc. for future projects and would be happy to discuss our experience with any interested party.

Sincerely,

A handwritten signature in blue ink, appearing to read 'John G. Thompson', with a long horizontal flourish extending to the right.

John G. Thompson
THE THOMPSON ORGANIZATION
Vice President
