Dear John,

Now that we have completed our second building project with you, I would like to congratulate and thank you and Penn Valley Constructors for your excellent work in making a true campus of our school, first with the construction of our gym in 1996, and now with the completion of our new classroom building.

From the very beginning of our first project, it was obvious to our school leadership that your company would lead us from concept, to design to construction with the highest degree of professionalism. This was repeated with our new school building. Penn Valley is a firm that can be depended upon for design, approvals, construction, and the discipline to hold and maintain the building schedule and the all-important budget.

While you have built our gym and our school building, you have also built much more with Abrams. You and your staff are great to work with on a personal level, and I believe you would agree with me that Penn Valley and Abrams have built a long-lasting bond of friendship.

Thank you once again for your genuine, hands-on attention and superb professionalism on behalf of our school. I look forward to keeping in touch.

Best regards,

A handwritten signature in black ink, appearing to read "Ira Budow", written over a light blue horizontal line.
