

Penn Valley Constructors, Inc.

On August 29, 2005 Hurricane Katrina struck full force on the shores of Southwest Mississippi. In the wake of devastation, Bucks and Montgomery county residents formed the Bucks-Mont Katrina Relief Project, partnered with the Salvation Army and made a plan to help the hurricane victims.

Penn Valley President, Jon Otto, served as chairman of the BMKL construction committee and as one of its directors. Penn Valley took the leadership role in construction, raising funds, soliciting and organizing volunteer contractors.

Thanks to generous contributions from customers, subcontractors, friends and Penn Valley staff, the 10,000 square foot, \$1.2 million Hancock County Child Development Center opened in February of 2007.

Shortly after opening the center was awarded the title of Outstanding Child Care Provider for Southern Mississippi and subsequently "Best in State".
