To Whom It May Concern:

Cento Fine Foods, Inc. is a producer, importer and distributor of Italian food products. A family owned and operated business, Cento was started by my parents and later carried forward by my brother and myself along with other family members.

In 1989, having out grown our facility in Westville, New Jersey, we purchased land in West Deptford, New Jersey for our new headquarters and distribution center. We interviewed several builders and ultimately selected Penn Valley Constructors, Inc. as our contractor for the 75,000 sq. ft. pre-engineered steel building.

The process went so well that two years later, when we decided to build 'Cento Two,' the 48,000 sq. ft. warehouse addition, we again chose Penn Valley Constructors. This time Penn Valley also handled all of the building design work.

Now 20 years later we are just completing 'Cento Three,' the final 44,000 sq. ft. addition to our facility. Again, we have chosen Penn Valley as design/build contractor. Frankly, we are more pleased than ever with their customer oriented professionalism, attention to detail and honesty. This project has gone even more smoothly than the first two.

We are more than satisfied with Penn Valley Constructors and would recommend them to anyone considering a large pre-engineered building project.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rick Ciccotelli".

Rick Ciccotelli
CEO
Cento Fine Foods, Inc.
